

Sinclair Broadcasting uses the public airwaves free of charge, and is obligated by law to serve the public interest. I would imagine that this precludes political smear campaigns during election season.

Equal time for candidates should be the norm. Taking over the public airwaves for partisan purposes is anti-democratic.

I don't think this serves our local community one bit. We want to hear the truth from both sides. Sinclair taking over our public airwaves to promote their own agenda is not in the best interests of our community. Let's have some locally produced commentary.
